

CAT HOLIDAY CARE CHECKLIST

Use our handy checklist to make sure you and your feline friend are ready for any time you'll be spending away from home.

BEFORE YOU LEAVE:

GENERAL HEALTH

- Bring your cat in for a summer health check with one of our vet nurses to go over the general health of your pet

VACCINATIONS

- Check your pet's vaccinations are all up-to-date, especially if using a cattery or pet sitter with multiple pets
- If your cat's vaccinations are due whilst you are away, book them in with us before you go for peace of mind

IN CASE OF AN EMERGENCY

- Leave the contact details of your vet in an obvious place.
- Leave details of where you are going on holiday and how to contact you

NOTES FOR YOUR PET SITTER:

- Basic information on your pet – name, age etc.
- Food information – type of food & quantities
- Mealtimes – list of times your pet should be fed
- Short medical history – just the things that your pet sitter should know about including allergies and any medication
- Leave details of any recent changes to your pet that you want your sitter to watch out for

PREPARE YOUR HOUSE FOR STAY AT HOME CARE

- Clean the house
- Block off dangerous areas and highlight these to your sitter
- Leave your pet care information in an easy to find spot
- Leave a cat carrier ready to go in case of an emergency
- Stock up on food and treats for your pet
- Stock up on cat litter

WHILST YOU'RE AWAY:

It's worth checking in after the first couple of days and then halfway through your holiday. Alternatively, ask your sitter to send you a picture and a few words each day.

Finally, relax! If you've prepared well the chances are your cat's enjoying their holiday as much as you are.
