

CAT HOLIDAY CARE CHECKLIST

Use our handy checklist to make sure you and your feline friend are ready for your upcoming time away from home.

BEFORE YOU LEAVE:

GENERAL HEALTH

- Bring your cat in for a summer health check with one of our vet nurses to go over the general health of your pet.

VACCINATIONS

- Check your cat's vaccinations are up-to-date, especially if using a cattery or pet sitter with multiple pets.
- If your cat's vaccinations are due when you're away, book them in with us before you go for peace of mind.

IN CASE OF EMERGENCY

- Leave the contact details of your vet in an obvious place.
- Leave details of where you are going on holiday and how to contact you.

NOTES FOR YOUR PET SITTER:

- Basic information on your pet – name, age etc.
- Food information – type of food & quantities.
- Water bowls – where they are and how often to change the water.
- Mealtimes – list when your cat should be fed.
- Short medical history – just the things your pet sitter should know about including allergies and any medication instructions.
- Leave details of any recent changes to your cat that you want your sitter to watch out for.

PREPARE YOUR HOUSE FOR STAY-AT-HOME CARE

- Clean the house, your cat's bedding and litter trays.
- Block off dangerous areas and highlight these to your sitter.
- Leave your pet care information in an easy to find spot.
- Leave a cat carrier ready to go in case of emergency .
- Stock up on food and treats for your pet, as well as cat litter.
- Leave any medication or parasite products your cat will need.

WHILE YOU'RE AWAY:

It's worth checking in after the first couple of days and then halfway through your holiday. Alternatively, ask your sitter to send you a photo and a quick update each day.

And...relax! If you've prepared well, chances are your cat is enjoying their holiday as much as you are.
