

How Clever Is Your Dog?

Understand & develop your dog's skills and have fun together with our Clever Dog Tests

Switcharoo You need 3 small tubs or buckets and some treats

1. Place a treat under each tub to get your dog interested
2. Once your dog has the hang of it, place a treat under one pot
3. Switch the pots around in front of your dog for extra fun!

- ★ Your dog turns over the pots looking for a treat
- ★★ Your dog finds the treat under one of the pots
- ★★★ Your dog indicates which pot the treat is under

Hide & Seek You need 3 cardboard boxes with loose lids & a familiar toy

1. Allow your dog to play with the toy for a few minutes first
2. Place the toy in the box and pop the lid on loosely
3. Make it more challenging by using a few boxes

- ★ Your dog recognises a particular toy
- ★★ Your dog follows your directions to find their toy
- ★★★ Your dog finds their toy when hidden in various places

High Five You need some tasty treats

1. Make a fist with a treat inside, kneel close and put it under your dog's nose - allow them to touch/paw at your hand and reward each time
2. Move your hand to either side of your dog's head - this encourages them to touch your hand to get the treat
3. When they are consistent, repeat without a treat in hand - hold your palm vertically in the air and reward each touch with a treat
4. Add "High Five" when your dog touches your hand

- ★ Your dog touches your hand when you're holding a treat
- ★★ Your dog touches your open palm without a treat inside
- ★★★ Your dog 'High Fives' on command
