

Prepare your Pet for Fireworks Night

Get your pet ready for the loud bangs & flashes before they start with our handy tick list. Stick it on your fridge to help you remember.

1 month before - Calm & desensitise

- Talk to your vet about pet calming products & possible medication.
- Practise noise desensitisation techniques with your dog gradually.

A few days before - Create a safe space

- Cover their bed with a blanket, or make a den from household items.
- Provide extra bedding, toys & treats, for a comforting safe haven.

On the day - Batten down the hatches

- Exercise pets during the day and keep them indoors at night.
- Secure cat flaps, shut windows, and draw the curtains.
- Bring hutches indoors, or put your pet in an enclosed indoor space.
- Turn the TV volume up a little to drown out the loud bangs.
- Don't leave pets home alone too long; leave the radio on when out.
- Give your pet extra cuddles, or leave them be if they prefer.
